Save Your Children.

The Enemies of Childhood

The undersigned clips the following from the Detroit Commercial Advertiser:

This is my first visit at the "round table," and Villa's letter about worms in children is what brings me here. My child was so bad that he had spasms. I knew that worms were the source of the trouble, but a safe remedy I could not find. I tried everything I heard of that I dared to, got worm medicine from every drug store in town, and nothing did any good until I tried Steketee's Worm Medicine. I have not much faith in patent medicines generally, but I had heard enough about Doctor Steketee, of Grand Rapids, to know that he was an honorable man and would not recommend a medicine unless it was all that he claimed it to be. I got the medicine, and it proved a perfect success. It is perfectly harmless, and no one need be afraid to give it to the most delicate child. It is not powerful enough to kill the worms; you get them alive and kicking. If you cannot get it of your druggist send to Doctor Steketee, Grand Rapids, Mich., for it.
Mrs. M. H., Jackson, Mich.

## WASHINGTON.

**The President Sends Several Appointments to the Senate--Congressional Proceedings.**

WASHINGTON, Feb. 19.—The president sent to the senate to-day the following nominations: Levi E. Pond, of Wisconsin, to be pension agent at Milwaukee; Fred Babcock, of Iowa, to be receiver of public moneys at Des Moines, Iowa, and several registers of land offices and supervisors of census.

The division of the time of the house among the friends of the various cities struggling for the world's fair has been arranged. One hour and a half on Thursday and half an hour on Friday will be allowed to each city. The friends and opponents of "any fair at all" will be allotted one hour of each day, which the chairman, Mr. Chandler, reserves to himself. As a result of an understanding had last night among the friends of the four cities, New York will be heard first, St. Louis next, Chicago third and Washington last.

The senate committee on naval affairs at its meeting this morning ordered an adverse report on the bill providing that when employes of the navy yards are laid up account of injuries, they shall receive pay during the period of their incapacity.

The house at 12:50 p. m., went into committee of the whole upon the bill for the appointment of an assistant secretary of war, and after some discussion the committee rose and reported the bill to the house, and resumed consideration of the bill for a form of government for Oklahoma.

In the senate, at 2 o'clock, the educational bill was resumed, Mr. Blair having the floor.

### FIENDISH ACT.

**Scoundrels Throw Oil of Vitriol Into a Young Lady's Face.**

ERIE, Pa., Feb. 19.—On Monday evening Miss Emma Fischer, a young lady of prominence and respectability, was called to the door of her home by some unknown miscreant, who threw oil of vitriol into her face, and then made his escape.

Dennis McCarthy, the young lady's lover, set out to find the man. About midnight McCarthy heard voices in an old building, and being satisfied that he was on the right track, he attempted to enter the door. The men inside fired upon McCarthy, inflicting a painful, but not fatal wound.

McCarthy held his ground and called loudly for help, but the men who were inside, and who were undoubtedly connected with the vitriol throwing, made their escape by the rear door. Miss Fischer will be greatly disfigured.

### GENTILES ON TOP.

**They Have a Majority In the Council of Salt Lake City.**

SALT LAKE CITY, Utah, Feb. 19.—Judge Zane yesterday decided that six mormon councilmen, who received the highest number of votes in their wards, are entitled to certificates of election. This would make the incoming council stand nine gentiles and six mormons. The gentiles have appealed from the decision.

### Silcott's Paramour.

WASHINGTON, Feb. 19.—It is rumored that Ermine Thebault, who left Washington with Silcott, the defaulting cashier of the sergeant-at-arms office, has returned to this city. She is said to be keeping very quiet, and it is surmised that she is trying to so arrange matters that Silcott can return.

### A BRUTAL FIGHT.

**Dempsey Defeats McCarthy In an Inhuman and Bloody Fight.**

SAN FRANCISCO, Feb. 19.—The closing rounds of the Dempsey-McCarthy fight last night were savage and bloody. Dempsey repeatedly hit his antagonist in the neck, but the Australian could not reach the nonpariel. McCarthy fought stubbornly, but Dempsey, by his quick movements, saved himself from the blows aimed at his face and body and was able to punish his antagonist severely.

In the twenty-sixth round Dempsey went in in earnest to finish his man. Three or four terrific right and left hand blows on the Australian's neck made the latter exceedingly groggy and then Dempsey hit him another blow in the face and McCarthy staggered around the ring like a drunken man, and Dempsey continued to rain blows on his neck, but he kept his feet until the nonpareil, in pity for his victim, asked him to give up.

McCarthy refused and Dempsey took him by the arm and led him to his corner, amid cheers.

In the twenty-seventh round McCarthy was just able to stand. A blow in the face sent him down. He arose and Dempsey again sent him him down. Dempsey then begged him to give up. McCarthy still refused and Dempsey struck him lightly as he came again. He fell, but arose in ten seconds, and Dempsey knocked him down a fourth time. He staggered to his feet to save a knock-out and the round closed.

McCarthy was led to his corner, covered with blood, amid loud cries to give up the fight. When McCarthy staggered to the center of the ring for the twenty-eight round Dempsey implored him to give up, and cries of "Knock him out, Jack," and "Give it up, McCarthy," were heard on all sides.

The Australian hated to acknowledge himself defeated, and Dempsey beat him into his corner and sent him down in a heap. He rose and leaned against the ropes for support; Dempsey walked up to finish him, but instead, he stepped to the ring and declared he had not the heart to punish his man any further. Paddy Gorman, McCarthy's second then broke into the ring and dragged his man into his corner, and refused to permit him to stay in the fight any longer. Dempsey was then formally declared the winner of the fight.

One of the bullets hit him in the leg, and the wound has never healed. He is consequently unable to walk much. He writes two every year. He gets through a certain amount of work every morning, never missing a day.

## DEATH OF THE JAIL CAT!

**Results in Revealing a Horrible Plot to Kill the Guards and Rescue a Murderer.**

PIKEVILLE, Ky., Feb. 19.—Ellison Mount was hanged here yesterday for participating in the murder of Miss Allafar McCoy and her brother. He remained cool to the last, and declared that the Hatfield outlaw gang forced him to engage in the murder. Threats had been made by Mount's friends to rescue him, but great precautions had been taken, and no disturbance occurred. The execution was witnessed by a large crowd.

After the execution the officers discovered a plot which, if successful, would have resulted in the escape of the prisoner, and probable death of a number of the guards of the jail. Through the confession of the jail cook, the discovery was made.

The Hatfields had paid the cook $200 to place a drug in the food of the jail guards the night before the execution. The cook was told that the drug that was given was merely to make the guards sleep. She became suspicious and concluded to try the effects of the preparation on the jail cat. The result was the death of the animal in horrible agony.

She then became alarmed and refused to put the poison in the food.

She did not communicate her intentions, however, to the outlaws and they gathered near the jail to await the signal which would indicate that the guards were sick within. Had the wholesale attempt at murder been successful not only the prisoners in the prison would have been killed from the effects of the poison, but also the sheriff's family and posse. The drug was found to be strychnine. The cook was immediately arrested.

All the outlaw gang have fled to the mountains of West Virginia, where it is sure death for the officers to follow them. All the lawless persons who are responsible for this outrageous affair are from West Virginia. The sheriff is having the necessary papers arranged to secure requisitions for the would-be murderers and every effort will be made to bring them to justice. Should they be brought back here during the present intense excitement every one of them would be instantly mobbed as the people are crazed with indignation.

### GRAND LODGE OFFICERS.

**The Officers of the A. O. U. W. Chosen To-Day.**

### World's Fair Bill.

ALBANY, N. Y., Feb. 19.—In the senate the assembly's action in the World's fair bill was concurred in and the bill passed.

"WHEN I went to California in 1849," says Millionaire Huntington, "I was accompanied by a party of young fellows from my native State, Connecticut, and when we reached Sacramento the first thing they did was to go to the hotel and spend $4 apiece for dinner. My dinner cost me less than a sixteenth of that sum. It was always my rule to live within my income. Any young man who does that will get along."

A QUEER ordinance was passed by the McConnellsville (Ohio) Council recently. The substance of the ordinance was to provide for building a high fence around a certain saloon in town known as the "Blue Goose," which appellation is suggested by the peculiarly bright color of its front. The fence will be placed there so as to prohibit entrance from any other than the front door, which faces the public square, the most prominent portion of the village.

### MUSIC AND RECITATIONS.

**The Entertainment Given at the Second Presbyterian Chapel.**

Last evening, in the chapel of the new Second Presbyterian church, was given a recital, the object of which was to derive funds to pay on a beautiful new piano just placed in the rooms.

The musical program consisted of solos by Miss Large, Miss Ninde, Miss Sturgis and Mr. Yarnelle and duets by Messrs. Lang and Yarnelle and Gertrude Beuke and Charlie Olds, the latter being especially applauded.

Miss Twaney's recitations were a very pleasing feature of the entertainment.

The young ladies who were promoters of the entertainment were the two Misses Stringer, the two Misses Lincoln and Miss Kitty Blynn and Dell Bourie. They netted about $60 to pay on the piano, which was purchased from Taylor's warerooms.

The congregation of St. John's Lutheran church recently extended a call to Rev. C. F. Dannecker, urgently soliciting his acceptance of the charge to succeed Rev. Kucher, resigned.

A letter from Mr. Dannecker expresses his thanks for the call, but he declines to accept.

The congregation will extend another call to him at once. It is a rule of the Lutheran synod that a third call made unanimously by a congregation must practically be accepted.

Murray Hartnett, who has long efficiently acted as bookkeeper in the insurance and real estate office of Sidney C. Ed. A. Beach, also employed as clerk in the same office is no longer holding that position.

Mr. Lumbard has tendered the position to Mr. Dan McKendry, jr., who recently accepted the deputyship under City Clerk Rudy Reinewald. Mr. McKendry entered upon his new duties at one.

WEDNESDAY, FEB. 19, 1890.

THE interest in the Cronin murder is being revived again.

IT looks as if our open winter would "hang on" until spring comes.

TO-DAY is the twenty-sixth anniversary of the order of the Knights of Pythias.

THE Personal Rights league will make its power felt in the politics of the city at future elections.

NEXT Monday congress will fix the day for deciding upon the place where the world's fair will be held.

CANDIDATES for state offices on both party tickets are springing up in almost every congressional district in Indiana.

THE Temple management is furnishing our amusement-going people with an unusual brilliant list of attractions this week.

THE pay days of the manufacturing establishments of the city have put a large amount of money into circulation this week.

MANY farmers, living near the city, have not visited Fort Wayne this winter on account of the bad condition of the country roads.

THE doctors continue to report a great deal of sickness in the city. This has been a profitable winter to physicians and druggists.

THE cold wave advertised in THE SENTINEL'S weather report last evening has come—but not to stay. Our winter weather is only fleeting.

FORT WAYNE has a good system of street railroads, but before another year has passed great improvements will be seen in this regard.

MAYOR HARDING thinks the junketing tour of the councilmen to inspect the pavements of other cities is baby play. He says it is a useless expenditure of the people's money.

DANCING has lost none of its charms among the young people of this city and seems to be on the increase. There have been five balls given in Fort Wayne during the last five nights. The amusement has been attacked several times this winter from the city pulpits, but it seems to be as popular as ever.

AN Indianapolis friend of James N. Huston says that gentleman will not retire from the treasuryship of the United States until next fall. Mr. Huston has declined the use of his name in connection with the race for congress as General Brown's successor, but it is not believed that he will decline the nomination.

JOSEPH R. GRAY, of Noblesville, has resigned from the board of commissioners in charge of the erection of the additional insane hospitals, to accept a position in the United States treasury, to which he has been appointed by the president. Governor Hovey appointed Jacob J. Todd, of Bluffton, to the vacancy on the board.

THE proposed changes in the Presbyterian creed are topics of considerable interest at present in the religious world. Rev. Dr. Moffat will handle the subject from his pulpit next Sunday morning. As the doctor is one of the ablest divines in the Presbyterian pulpit, there is a very general desire to hear him on the subject. He speaks on the theme by request.

A MOVEMENT is on foot in Chicago to do away with Sunday shaving by closing the barber shops on that day. The barbers of this city have observed the Sunday law voluntarily for a number of years and their customers think a good deal more of them for it. One day of rest in seven is a human, as well as a divine law and men are better off by reason of having observed it. Mechanics as a rule do not work on Sundays and barbers need not do it.

EFFORTS are being made to organize an international demonstration in favor of an eight-hour working day. A resolution to that effect was passed at the International Socialist workingmen's demonstration in Paris. The American Federation of Labor had fixed May 1, 1890, as the day for a similar demonstration, so that day was adopted in Paris. All the clubs and organizations in Great Britain which are interested in the question have called meetings in order to "make the May demonstration in Great Britain universal and successful." In Germany and Austria the trade-unions and labor organizations are also actively engaged in preliminary work.

HERETOFORE there have been three national woman's suffrage associations, They were the American Woman's Suffrage association, the National Woman's Suffrage association and the National American Woman's association. Hereafter the last-named organization will be the only one in existence the first two having decided at meetings at Washington Monday to consolidate with the third. Officers were elected as follows: President, Elizabeth Cady Stanton; vice president at large, Susan B. Anthony; recording secretary, Rachael Foster Avery; corresponding secretary, Alice Stone Blackwell; treasurer, Jane H. Spofford; chairman of executive committee, Lucy Stone.

IN his sermon at the cathedral last Sunday morning Bishop Dwenger preached a powerful sermon in favor of properly educating children in church music, particularly singing, and also favored increasing the number of the church choir to fifty or more. It was the duty of parents, he said, to have their children taught the singing of hymns. This was a beautiful way of worshipping God and persons having talent in this direction should cultivate it and give their talents to the service of the Lord by singing in His temple at religious worship.

## THE STATE BOARD OF HEALTH

### Upon the Proper Ingredients for Wholesome Baking Powders.

The baking powder manufacturers who are trying by dishonest statements to deceive the people of this community into buying powders found by the official analysis to be adulterated and greatly inferior in leavening strength, fail to agree with the official health bodies, physicians, and scientists, in their estimate of the value of carbonate of ammonia as a leavening agent. In their indecent attacks they overshoot the mark altogether and make themselves supremely ridiculous in the light of what the state board of health of Indiana officially publishes upon the subject. The following, from the report of this board for 1885, page 232, will be of general interest:

"As regards carbonate of ammonia, I am safe in saying it cannot prove inimical to health, because the heat of the oven will totally dissipate it, as it is readily volatile at a much lower temperature than is necessary for baking bread. It depends, too, upon this very property of volatility for its value as a lightener of dough; for when transformed to a gas by the oven's heat, in its struggle to escape the effect sought is obtained. Much ado has lately been made by certain baking powder makers about the origin of ammonia, as if that should condemn its use. The facts are, that ammonia being composed of the two gases, nitrogen and hydrogen, it matters not how manufactured, the result, when the substance is pure, is always the same. It is simply a trade doge to advertise," etc.

The Scientific American, recognized as one of the highest authorities upon such subjects, likewise says:

"The carbonate of ammonia is an exceedingly volatile substance. Place a small portion of it upon a knife and hold over a flame, and it will almost immediately be entirely developed into gas and pass off into the air. The gas thus formed is a simple composition of nitrogen and hydrogen, slightly aromatic, inoffensive, and perfectly wholesome. No residue is left from the ammonia. This gives it its superiority as a leavening power over soda and cream of tartar used alone, and has induced its use as a supplement to these articles. A small quantity of ammonia in the dough is effective in producing bread that will be lighter, sweeter and more wholesome than that risen by any other leavening agent. When it is acted upon by the heat of baking the leavening gas that raises the dough is liberated. In this act it uses itself up, as it were; the ammonia is entirely diffused, leaving no trace or residuum whatever. The light, fluffy, flaky appearance, so desirable in biscuits, etc., and so sought after by professional cooks, is said to be imparted to them only by the use of this agent.

"The bakers and baking powder manufacturers producing the finest goods have availed themselves of this useful agent, and the handsomest and best bread and cake are now largely risen by the aid of carbonate of ammonia, combined, of course, with other leavening material."

## EN MASQUE.

### The Masquerade Ball of the Sangerbund Society.

The masquerade ball of the Sangerbund society was held at Princess rink last night.

The attendance was large, the festivities lively and long lasting, and everybody seemed to hugely enjoy the occasion. The music was furnished by Reineke's full orchestra.

The costumes were rich, unique, grotesque, and simple, and space will not permit of a full list of names.

The grand march was led by C. Jacobs and R. Steinman. Twenty-four dances were numbered on the program, and from the grand march to "Home, Sweet Home," all were tripped by light-hearted dancers, bent upon having a good time. The following committees had charge of the affair: Arrangements—August Langhorst, William Becker, Paul Richter. Reception—Henry Keller, Peter Nussbaum, Otto Herbst. Introduction—Otto Cummerow, Frank Rahe, Gottleib Stauffer. Floor—A. Steinman, Charles Jacobs, Max Irmscher, Theodore Bruck, Nich. Belling, Adam Schlegel, Charles Braun, August Knoche.

The Saengerbund never does things by halves and their affair last night added more laurels to their famous reputation.

"I had rather be a kitten and cry and mew" than groan all night and scold all day with neuralgia, when one little bottle of Salvation Oil would make me gentle and well. Pussy, wouldn't you?

Coughs, hoarseness, asthma or any irritation of the throat or bronchial tubes will be relieved by taking Dr. Bull's Cough Syrup. It has cured thousands. Recommend it to your friend and neighbor.

## IT'S JUST RIGHT.

### Manager Geary Will Refuse Disreputable Characters Admission to the World's Museum.

This morning while one of the members of THE SENTINEL'S reportorial staff was on his rounds in search of news, he dropped into the private office of Manager James Geary, of the World's Museum and Theater.

Mr. Geary is a genial gentleman, and it is always a pleasure to meet him. He was in a talkative mood, and to the question of "How's business?" from our reporter, he said, smilingly:

"Oh, good! Excellent in fact. I have had a splendid business ever since my museum and theater was opened here, and I feel grateful to your amusement going people for the patronage that has been extended me."

"That is because you run a clean show," suggested our reporter.

"Yes," was the reply. "My aim is to furnish the people of Fort Wayne with entertainments of a moral tone. The people I place on my stage are instructed to furnish nothing in the way of amusement of an offensive character and to appear in a costume that is becoming. No short or low-necked dresses are allowed. This is my imperative rule."

"Another thing, too, in connection with my theater, that I think will please the public, is that I will not allow any disreputable characters in the house. I propose to have a place which, at all times, will be perfectly proper for ladies of the most refined character to visit. I want to please the ladies and children, and I want their patronage, and for this reason I am catering to their tastes and wishes. I have placed at my door a man who is acquainted with the disreputable characters of the city and have instructed him to refuse them admission. I do not want their money and I will not have them in the house. I want it known that my Museum will always be a moral place of amusement that ladies and children can visit without fear of offensive performances or the presence of improper characters in the house. Women that belong to the latter class will, as I have already said, be denied admission at the door. That's right; isn't it?"

Our scribe thought so and he concluded in this way to let the public know just what kind of a man Manager Geary was.

The museum this week has "Big Eliza" as an attraction. Next week, Mr. Geary says, he will have Annie Nelson, the smallest lady in the world and arrangements have already been made for splendid attractions during the weeks that are to follow. Mr. Geary is a model manager and he deserves the patronage of our best people—and he is getting it.

## A BRILLIANT LIST.

### The Attractions at the Temple for This Week.

Few attractions more popular than Sir Charles Young's "Jim, the Penman," have visited Fort Wayne, and the engagement of A. M. Palmer's Madison Square theater company at the Temple Thursday evening, promises to be most remunerative. The plot of "Jim, the Penman," is unusually fascinating. It depicts a well known English gentleman, honored and respected, who is in reality a bold and cunning forger, known to the police as "Jim, the Penman," but upon whom they have been unable to get their clutches. He lives in the fancied security of his dual life, blessed by the love and wife whom he has gained by treachery, the trickery of his facile pen, having estranged her from a former lover. The forger, James Ralston, wishes to get a fortune so that he may abandon his villainy and lead an honorable life, but his former companions will not permit him to do so. Captain Redwood, a detective, pursues him, but Ralston dies before exposure and disgrace came.

The sale of seats for Chas. T. Ellis in "Casper, the Yodler" opened at the box office this morning. A good house will greet the favorite comedian, who is well liked wherever he appears. His songs are new and very catching. He appears at the Temple Friday evening.

The eminent romantic actor, Robert Mantell, and his thoroughly competent dramatic company will appear at the Temple theatre on Saturday evening next, in an entirely original production of Shakespeare's superb tragedy, "Othello." Mr. Mantell's success as the jealous Moor induced him to add this play to his repertory and the remarkably big business done with it, attests the public's appreciation of his conception of Othello's complex character. Mr. Mantell's costumes in this play are the costliest ever shown on the stage and in them Mantell looks, indeed, like a princely Moor.

### How to Cure La Grippe.

From the Des Moines Mail and Times.

Mr. George Tennant of this city, in conversation with a representative of the Mail and Times, one evening this week, said: "Yes, I took this prevailing influenza. I gave up work and went to bed. I had a dreadful cough and was very sick, but am all right now." We ventured to ask what remedy had proven successful in his case. "O, Chamberlain's Cough Remedy. I used a whole bottle, it brought me out all right; I feel first-rate now. We are never without Chamberlain's medicines in our family."

This testimony is only one of many that might be given to show the value of these preparations. Those who are afflicted with this malady would do well to use Chamberlain's Cough Remedy. If used as directed it will be found effectual. Fifty cent bottles for sale by Geo. H. Loesch.

# Be Sure

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. A Boston lady, whose example is worthy imitation, tells her experience below:

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me buy their own instead of Hood's; he told me their's would last longer; that I might take it on ten

days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I had taken Hood's Sarsaparilla, knew what it was, was satisfied with it, and did not want any other. When I began taking Hood's Sarsaparilla I was feeling real miserable with dyspepsia, and so weak that at times I could hardly

# NOT A PIMPLE ON BABY.

**Baby one year old. Had with Eczema. Hair all gone. Scalp covered with eruptions. Cured by Cuticura. Hair splendid and not a pimple on him.**

## Cured by Cuticura.

I cannot say enough in praise of the Cuticura Remedies. My boy, when one year of age, was so bad with eczema that he lost all of his hair. His scalp was covered with eruptions, which the doctor said was scall-head, and that his hair would never grow again. Despairing of a cure from physicians, I began the use of the Cuticura Remedies, and, I am happy to say, with the most perfect success. His hair is now splendid, and there is not a pimple on him. I recommend the Cuticura Remedies to mothers as the most speedy, economical, and sure cure for all skin diseases of infants and children, and feel that every mother who has an afflicted child will thank me for so doing.

MRS. M. E. WOODSUM, Norway, Me.

### Fever Sore Eight Years.

I must extend to you the thanks of one of my customers, who has been cured by using the Cuticura Remedies of an old sore, caused by a long spell of sickness or fever eight years ago. He was so bad he was fearful he would have to have his leg amputated, but is happy to say he is now entirely well—sound as a dollar. He requests me to use his name, which is H. H. CASON, merchant.

## ON THE BRINK!

### Of One of the Biggest Freight Wars Ever Known--The Railroad News.

Indicatiens now are that the western roads are on the brink of one of the biggest freight wars that has ever been fought. The agreements have been knocked all to pieces, at least the agreements that were made a short time ago.

Of course the Burlington and Northern road is at the bottom of the trouble, as they openly announced that they would put the reduced freight rates into effect immediately. This announcement was followed by that of the Illinois Central, saying that they would put reduced rates into effect at once between Chicago and Sioux City. This last announcement was not expected by the other western roads, and has resulted in great consternation.

Since it became generally known that a reduction in the St. Paul rates could not be stopped, the efforts of the managers of the western roads have been directed toward preventing the reduction from spreading to the Missouri river. Other roads in the Western association, when they learned of the intention of the Illinois Central to reduce, gave notice that it being impossible for them to lose any of their traffic they would cut also. They cannot afford to stand aside and let the Illinois Central enjoy an advantage.

There promises to be fun in the western railroad circles if the trouble is not settled soon. The Burlington is very obstinate, as it has been in many similar cases, and they will not come up to the standard again without a great deal of persuasion.

TRAFFIC ON INDIANA ROADS.

State Statistician Poole has completed his tables concerning the railroads of this state. He shows that in 1889 the passenger earnings were $33,350,036; freight earnings, $75,208,954, making a total of $105,003,834. The expenditures were $77,083,323, leaving an excess of earnings over expenses of $27,920,511. The gross earnings, the statistician says, are 86.5 per cent. on bonded indebtedness of $1,259,091,000, and the suplus is 22 per cent. of the same debt.

The number of employes on all the roads is about 74,575. The lowest wages reported are seventy-nine cents a day for pumpmen and the highest $20 a day for general officers. The through passengers carried during 1889 on the roads of the state were 2,641,733 and local passengers 29,707,109; total 32,349,442. Estimating the population of Indiana at 2,500,000, it is seen that the railroads of the state during 1889 transported the entire population thirteen times and 212,650 persons in addition. The average number in the cars each day of the 365 was 88,819. The tons of freight carried amounted to 63,526,509.

THE DAY'S GOSSIP.

The Wabash road paid its employes to-day.

James Wilding has bought the Transfer and Storage company.

A number of the railroad and shop men attended the Saengerbund ball last night.

Passenger Agent Thompson reports passenger business as lively on the Wabash road.

Foreman Charles Buck is having repairs made in the platform around the Wabash depot.

Foreman James Hewes and William Rogers, of the Pittsburg shops, remain on the sick list.

The Grand Rapids is having an ice blockade. The company is three weeks behind in filling orders for ice.

Dan Gordon will resign his position at the Pittsburg baggage rooms to accept a place with the Newspaper Union.

Freight Agent Rossington, of the Pittsburg, is having a new floor laid in the general freight office rooms. Other improvements are also being made.

Foreman S. C. Henderson, of the Pittsburg shops, who has been ill for a few months, is rapidly recovering. He is now visiting friends out of the city.

A St. Louis physician thinks it is just as important that the ears of railroad employes, and particularly the ears of locomotive engineers should be scientifically tested as well as their eyes.

What was going on last night? The railroad reporter of THE SENTINEL this morning, in making his rounds, met within the space of an hour more than a dozen drunken men staggering along the street.

Henry Fanz, the tinner, of Aberdeen, Miss., fame, formerly of this city, has been recommended for appointment as a special agent of the census office to collect statistics of recorded indebtedness. This is his reward for telling of southern outrages.

The shipments of flour, grain and provisions from Chicago to the seaboard by the lines in the Central Traffic association, last week, aggregated 61,881 tons, against 69,702 for the week previous, a decrease of 7,821 tons, and against 41,292 for the corresponding week last year, an increase of 20,389 tons. The Vanderbilt lines carried 46.6 per cent. of the business, the Pennsylvania lines, 27.2, and the Baltimore and Ohio, 11.4, Chicago and Grand Trunk, 11.4.

The order of the Pennsylvania company that agents who had received annual passes over other lines should return them, has excited a good deal of unfriendly criticism. The passenger departments of the Pennsylvania and of the Lake Shore road take the position that they are not given to agents out of any regard for them or the roads they represent, although the flattering letter accompanying them might lead an agent to think otherwise. The passes, the general passenger agents say, are given simply as a cheap method of buying business. They cost the road issuing them nothing but the expense of printing, their trains never being burdened at any time with extra service on such account. Any agent who can obtain a leave of absence sufficient to enable him to take such a trip can, as a rule, obtain a pass by making the request.

An investigation is being made into the cause of the collision near Mitchell, on the Louisville, New Albany and Chicago line, which resulted in heavy financial loss and probably four deaths. A copy of the train dispatcher's orders is reported to show that Edward Fite, the engineer, and his conductor, was instructed to take his engine and run to the water tank, but to avoid all regular trains. It is also claimed that Fite was mentally unsound, the result of an accident some months ago, and only three days before he had been returned to duty. Mr. Fite claims possession of an order instructing him to run to the water tank and return, with no reference to possible obstructions, and that while he was lying nearly dead at Mitchell an agent of the company attempted to get this order from him, but failed. Afterward Mrs. Fite secured possession and deposited it in bank.

$25.00 REWARD!

**The Land and Improvement Company Make a Proposition.**

**They Will Give Our People a Chance to Name the New Park.**

**And Will Pay $25.00 to the Person Proposing the Name Adopted.**

The gentlemen composing the Fort Wayne Land and Improvement company, feel that they would like to have the citizens of Fort Wayne and vicinity have a part in naming the new city park, which they propose to lay out in their recently acquired property east and north of the city. They have decided, therefore, to invite all our people to assist in the selection of a pretty and suitable name.

To the person proposing the name which shall finally be chosen the directors have decided to award the sum of twenty-five dollars. And any person, old or young, is privileged and invited to compete for said prize, under the following conditions: No person is to send in more than one name, but a family consisting of a number of persons may send in one name for each, but each must be sent in in a separate envelope. The name proposed is to be plainly written on a sheet of paper, together with the name of the person proposing it, and his or her place of residence. This must be sealed and the envelope addressed and endorsed as follows:

SECRETARY LAND IMPROVEMENT CO.,
FORT WAYNE,
INDIANDA.

NAME FOR PARK.

Thus addressed, they are to be mailed or left at the company's office, room No. 12, Pixley-Long block.

On receipt of all envelopes, thus marked, the secretary will number each in the order in which it is received and, without opening, will file them away until 6 p. m., Feb. 27, the date appointed for the closing of competition. The secretary shall then open all envelopes in the order in which they are numbered and shall record, in a properly ruled book, the name proposed, the number borne upon the envelope, the name of the person sending it in, and his place of residence. When this is done, the secretary shall prepare a list of the names suggested, but shall not inform any person by whom any such name has been sent in. The stockholders shall then be called together and the list of names being submitted, they shall proceed to ballot for the name of their choice, each person to vote upon such shares as have been subscribedy b him, or for which he may hold a written proxy. Balloting shall be continued until some name shall receive a majority of all the stock voted. After each ballot the names receiving the smallest number of votes, to the extent of one-tenth of the number voted for shall be dropped and shall not again be voted for. If before a choice is reached the number of names be reduced to less than ten, the name receiving the smallest number of votes shall be dropped at each succeeding ballot. When a selection is finally reached, if it be found that two or more persons have sent in the name chosen, the prize shall go to the person shown by the secretary's books to have first proposed it.

By order of the board of directors.

D. N. FOSTER, President.
C. A. WILDING, Secretary.

**Strike at Paris.**

PARIS, Feb. 18.—As a consequence of the discharge of one of their number, the miners in two coal pits at St. Etirnne have gone on a strike.

**Infernal Ingenuity**

Could scarcely devise more excruciating tortures than those of which you see the evidences in the face of a rheumatic or neuralgic sufferer. The agonies are the consequence of not checking a rheumatic or neuralgic attack at the outset. Hostetter's Stomach Bitters has been found by skillful medical practitioners to possess not only remedial, but defensive efficacy, where those diseases exist, or a tendency to them is exhibited. Surely this puissant but safe botanic medicine, bearing, too, such high specific sanction, is better than the poisons often employed, but most unsafe, not only in continuance, but in isolated doses. The blood is depurated thoroughly from the rheumatic virus, and the nerves, slightly impurged upon, save from ultimate and direful throes by this benign, saving medicine, which likewise exhibits marked efficacy for malaria, kidney complaints, dyspepsia, constipation and liver complaint.

A Michigan mathematician calculates that 17,500,000 people in the United States have had the grip.

**Advice to Mothers.**—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

Mrs. Rabbi Aaron left for Buffalo, N. Y., last night after a pleasant visit with her parents, Mr. and Mrs. Leopold Falk, of West Washington street. Mrs. Aaron was formerly a noted local vocalist. She became the bride of Rabbi Aaron, who formerly held the Hebrew charge here but who is now getting a neat salary of $3,000 a year at Buffalo.

Mrs. Charles Hill, of 63 West Superior street, entertained last night. There was music and refreshments and the evening passed pleasantly. Those present were Miss Carrie Koontz, of Camden; Misses Daisy Bates, Lizzie Garrigus and Rose Johnson, of the Conservatory of music; Prof. M. N. Plumadore, Mr. Conklin and sister and Mr. Maibucher.

Last Monday Manager James Geary, of the World's Museum, purchased a set of diamond ear rings which he had intended presenting to his wife to-day, this being the occasion of the anniversary of her birth. While going home that night he lost them on the street. In response to a lost advertisement one of the rings was returned, but the other is still missing. The ring is spiral in design, with a set in the center, and Mr. Geary is very anxious to secure the lost jewel.

The funeral of the late Michael Kelley will take place to-morrow at 9:30 o'clock, from the residence, 181 East Jefferson street, and at 10 o'clock, from the Cathedral. Was a success, such that has had no precedence in the history of Fort Wayne. The universal verdict of the hundreds of bargain-seekers that crowded our store last Saturday, the opening day, was, we agree that this is the cheapest SHOE SALE that ever visited this city. A great many people will doubtless think this a humbug traveling store. In this they are mistaken, as we can prove to all that so desire that this is STRICTLY A LEGITIMATE SALE. The history of the failure of Hugh Dyer & Co., of Toledo, Ohio, is as follows:

On the 5th day of October last the aforesaid firm, then doing a very prosperous business, thinking this would be a very severe winter, laid in a very large stock of winter goods, in payment of which they gave judgment notes. The winter was an exceedingly mild one, consequently trade was very dull. Their goods were not moving; bills became due, and having no money, they were compelled to mortgage their stock, $20,000 worth, to Mr. M. McDonald, of this city, for $8,765.87, which was to be paid on February 1st. The money was not forthcoming, and Mr. McDonald, fearing that he would lose his investment, foreclosed the mortgage. The stock after invoicing amounted to a little over $18,000, and was shipped to Fort Wayne, where it will be sold for about 33c. on the dollar.

We have not sufficient space to quote prices, but will give you an idea how we will dispose of the goods; for instance: A shoe that was formerly sold for $3, we will sell for $1; a shoe that was sold for $2, we will sell for 67c.; slippers that cost 75c. we'll sell for 25c.; ladies' rubbers at 50c. we'll sell for 17c., &c.

Amongst the stock we find such makes as Pingree & Smith, Ludlow & Co., Gray Bros., John Kelly, Reynolds Bros. and E. C. Burt. All running regular size from 2 to 8, from AA to EE widths.

As this stock must be expeditiously disposed of, it will pay all intending paying this sale a visit to do so at once. Remember, we guarantee to save you from 50c. to $3.00 on every purchase.

Save Your Children.

The Enemies of Childhood

The undersigned clips the following from the Detroit Commercial Advertiser:

This is my first visit at the "round table," and Villa's letter about worms in children is what brings me here. My child was so bad that he had spasms. I knew that worms were the source of the trouble, but a safe remedy I could not find. I tried everything I heard of that I dared to, got worm medicine from every drug store in town, and nothing did any good until I tried Steketee's Worm Medicine. I have not much faith in patent medicines generally, but I had heard enough about Doctor Steketee, of Grand Rapids, to know that he was an honorable man and would not recommend a medicine unless it was all that he claimed it to be. I got the medicine, and it proved a perfect success. It is perfectly harmless, and no one need be afraid to give it to the most delicate child. It is not powerful enough to kill the worms; you get them alive and kicking. If you cannot get it of your druggist send to Doctor Steketee, Grand Rapids, Mich., for it.
Mrs. M. H. Jackson, Mich.

## WASHINGTON.

**The President Sends Several Appointments to the Senate—Congressional Proceedings.**

WASHINGTON, Feb. 19.—The president sent to the senate to-day the following nominations: Levi E. Pond, of Wisconsin, to be pension agent at Milwaukee; Fred Babcock, of Iowa, to be receiver of public moneys at Des Moines, Iowa, and several registers of land offices and supervisors of census.

The division of the time of the house among the friends of the various cities struggling for the world's fair has been arranged. One hour and a half on Thursday and half an hour on Friday will be allowed to each city. The friends and opponents of "any fair at all" will be allotted one hour of each day, which the chairman, Mr. Chandler, reserves to himself. As a result of an understanding had last night among the friends of the four cities, New York will be heard first, St. Louis next, Chicago third and Washington last.

The senate committee on naval affairs at its meeting this morning ordered an adverse report on the bill providing that when employes of the navy yards are laid up account of injuries, they shall receive pay during the period of their incapacity.

The house at 12:50 p. m., went into committee of the whole upon the bill for the appointment of an assistant secretary of war, and after some discussion the committee rose and reported the bill to the house, and resumed consideration of the bill for a form of government for Oklahoma.

In the senate, at 2 o'clock, the educational bill was resumed, Mr. Blair having the floor.

### FIENDISH ACT.

**Scoundrels Throw Oil of Vitriol Into a Young Lady's Face.**

ERIE, Pa., Feb. 19.—On Monday evening Miss Emma Fischer, a young lady of prominence and respectability, was called to the door of her home by some unknown miscreant, who threw oil of vitriol into her face, and then made his escape.

Dennis McCarthy, the young lady's lover, set out to find the man. About midnight McCarthy heard voices in an old building, and being satisfied that he was on the right track, he attempted to enter the door. The men inside fired upon McCarthy, inflicting a painful, but not fatal wound.

McCarthy held his ground and called loudly for help, but the men who were inside, and who were undoubtedly connected with the vitriol throwing, made their escape by the rear door. Miss Fischer will be greatly disfigured.

### GENTILES ON TOP.

**They Have a Majority In the Council of Salt Lake City.**

SALT LAKE CITY, Utah, Feb. 19.—Judge Zane yesterday decided that six mormon councilmen, who received the highest number of votes in their wards, are entitled to certificates of election. This would make the incoming council stand nine gentiles and six mormons. The gentiles have appealed from the decision.

### Silcott's Paramour.

WASHINGTON, Feb. 19.—It is rumored that Ermine Thebault, who left Washington with Silcott, the defaulting cashier of the sergeant-at-arms office, has returned to this city. She is said to be keeping very quiet, and it is surmised that she is trying to so arrange matters that Silcott can return.

### A BRUTAL FIGHT.

**Dempsey Defeats McCarthy In an Inhuman and Bloody Fight.**

SAN FRANCISCO, Feb. 19.—The closing rounds of the Dempsey-McCarthy fight last night were savage and bloody. Dempsey repeatedly hit his antagonist in the neck, but the Australian could not reach the nonpariel. McCarthy fought stubbornly, but Dempsey, by his quick movements, saved himself from the blows aimed at his face and body and was able to punish his antagonist severely.

In the twenty-sixth round Dempsey went in in earnest to finish his man. Three or four terrific right and left hand blows on the Australian's neck made the latter exceedingly groggy and then Dempsey hit him another blow in the face and McCarthy staggered around the ring like a drunken man, and Dempsey continued to rain blows on his neck, but he kept his feet until the nonpareil, in pity for his victim, asked him to give up.

McCarthy refused and Dempsey took him by the arm and led him to his corner, amid cheers.

In the twenty-seventh round McCarthy was just able to stand. A blow in the face sent him down. He arose and Dempsey again sent him him down. Dempsey then begged him to give up. McCarthy still refused and Dempsey struck him lightly as he came again. He fell, but arose in ten seconds, and Dempsey knocked him down a fourth time. He staggered to his feet to save a knock-out and the round closed.

McCarthy was led to his corner, covered with blood, amid loud cries to give up the fight. When McCarthy staggered to the center of the ring for the twenty-eight round Dempsey implored him to give up, and cries of "Knock him out, Jack," and "Give it up, McCarthy," were heard on all sides.

The Australian hated to acknowledge himself defeated, and Dempsey beat him into his corner and sent him down in a heap. He rose and leaned against the ropes for support; Dempsey walked up to finish him, but instead, he stepped to the ring and declared he had not the heart to punish his man any further. Paddy Gorman, McCarthy's second then broke into the ring and dragged his man into his corner, and refused to permit him to stay in the fight any longer. Dempsey was then formally declared the winner of the fight.

## DEATH OF THE JAIL CAT!

**Results in Revealing a Horrible Plot to Kill the Guards and Rescue a Murderer.**

PIKEVILLE, Ky., Feb. 19.—Ellison Mount was hanged here yesterday for participating in the murder of Miss Allafar McCoy and her brother. He remained cool to the last, and declared that the Hatfield outlaw gang forced him to engage in the murder. Threats had been made by Mount's friends to rescue him, but great precautions had been taken, and no disturbance occurred. The execution was witnessed by a large crowd.

After the execution the officers discovered a plot which, if successful, would have resulted in the escape of the prisoner, and probable death of a number of the guards of the jail. Through the confession of the jail cook, the discovery was made.

The Hatfields had paid the cook $200 to place a drug in the food of the jail guards the night before the execution. The cook was told that the drug that was given was merely to make the guards sleep. She became suspicious and concluded to try the effects of the preparation on the jail cat. The result was the death of the animal in horrible agony.

She then became alarmed and refused to put the poison in the food.

She did not communicate her intentions, however, to the outlaws and they gathered near the jail to await the signal which would indicate that the guards were sick within. Had the wholesale attempt at murder been successful not only the prisoners in the prison would have been killed from the effects of the poison, but also the sheriff's family and posse. The drug was found to be strychnine. The cook was immediately arrested.

All the outlaw gang have fled to the mountains of West Virginia, where it is sure death for the officers to follow them. All the lawless persons who are responsible for this outrageous affair are from West Virginia. The sheriff is having the necessary papers arranged to secure requisitions for the would-be murderers and every effort will be made to bring them to justice. Should they be brought back here during the present intense excitement every one of them would be instantly mobbed as the people are crazed with indignation.

### GRAND LODGE OFFICERS.

### World's Fair Bill.

ALBANY, N. Y., Feb. 19.—In the senate the assembly's action in the World's fair bill was concurred in and the bill passed.

"WHEN I went to California in 1849," says Millionaire Huntington, "I was accompanied by a party of young fellows from my native State, Connecticut, and when we reached Sacramento the first thing they did was to go to the hotel and spend $1 apiece for dinner. My dinner cost me less than a sixteenth of that sum. It was always my rule to live within my income. Any young man who does that will get along."

A QUEER ordinance was passed by the McConnellsville (Ohio) Council recently. The substance of the ordinance was to provide for building a high fence around a certain saloon in town known as the "Blue Goose," which appellation is suggested by the peculiarly bright color of its front. The fence will be placed there so as to prohibit entrance from any other than the front door, which faces the public square, the most prominent portion of the village.

A bill was filed in the United States court at Indianapolis yesterday by the Brush Electric company, against the Indianapolis Union railway company. The Brush people ask for a writ of injunction to provisionally enjoin the defendants from making, using, or selling any electric arc lamps embodying the patented improvement of the plaintiff. These lamps are inventions of the Fort Wayne Electric company, who have given the railway a bond of indemnity.

**The Efforts Being Made to Secure the Next Union Veteran Encampment for This City.**

Mr. J. V. Hiler, as delegate, James E. Graham and Oscar Darroch, members of the encampment, No. 52, Union Veteran Legion, of this city, will be among the number attending the Union Veteran Legion national encampment, which convenes at Newark, Ohio, to-morrow, lasting two days.

The Fort Wayne delegation is small, but it expects to accomplish some wonderful results. Delegate Hiler will leave to-night armed with resolutions passed by the common council, and the Business Men's Exchange, inviting the next encampment here.

Mr. Hiler also has the following good words from the railroad passenger agents and hotel keepers, which explain themselves:

We, the undersigned, hotel keepers in the city of Fort Wayne, Ind., hereby promise that if the Union Veteran Legion of America will hold their fifth annual encampment in this city in 1891, that we will reduce our rates to representatives and visitors attending said encampment to as low an amount as any other house of the same class can do.

### MUSIC AND RECITATIONS.

**The Entertainment Given at the Second Presbyterian Chapel.**

Last evening, in the chapel of the new Second Presbyterian church, was given a recital, the object of which was to derive funds to pay on a beautiful new piano just placed in the rooms.

The musical program consisted of solos by Miss Largo, Miss Ninde, Miss Sturgis and Mr. Yarnelle and duets by Messrs. Lang and Yarnelle and Gertrude Beuke and Charlie Olds, the latter being especially applauded.

Miss Twaney's recitations were a very pleasing feature of the entertainment.

The young ladies who were promoters of the entertainment were the two Misses Stringer, the two Misses Lincoln and Miss Kitty Blynn and Dell Bourie. They netted about $60 to pay on the piano, which was purchased from Taylor's warerooms.

### DR. JACKSON DYING.

**The Founder of the Wabash Hospitals Dying From Pneumonia.**

A special dispatch conveys the intelligence that Dr. J. W. Jackson, president of the Railway Surgeons association of the United States is dying at his residence in Kansas City.

Dr. Jackson a few days ago, came near dying from blood poisoning, contracted while performing an autopsy, but after a long struggle, recovered sufficiently to resume his practice. Thursday he fainted, and when taken home was found to be suffering with pneumonia, and is now at the point of death.

Dr. Jackson's death would cause a promotion among some surgeons of the Wabash. He is well known among some of the profession in this city. He was the founder of the hospitals of the Wabash railway.

### AN ANNIVERSARY.

**The Concordia Singing Society Celebrates Its Third Year.**

The Concordia Singing society of St. Paul Lutheran church celebrated the third anniversary of the organization last night. The affair was held at the church hall. A musical program was rendered as follows:

Vocal solos, sung by Miss Lydia Wichman and Miss Sophia Nohrwald.

Piano solos, by Miss Carrie Eckart and Miss Lena Wichman.

Piano duet, by Mr. W. R. Gerberding and Miss Bertha Gerberding.

A grand supper served by the young ladies was then indulged in. The anniversary was a most enjoyable social event.

### UNFORTUNATE ONES.

**T. J. McCaffrey's Hand Mashed—Other Accidents Recorded.**

T. J. McCaffrey, a trainman on the Pittsburg road, had his hand mashed while coupling cars at Crestline yesterday. He came to this city and had the injured member dressed.

H. C. Heidenrich, an employe of the Fort Wayne iron works, sustained a severe scalp wound yesterday afternoon. Dr. McOscar, who dressed the injury, says there was a bad concussion.

Gaylord Curtiss, of Findlay, Ohio, had his right hand terribly crushed between the bumpers at Van Wert yesterday.

### DOES NOT ACCEPT.

**Rev. C. F. Dannecker Declines the Call of St. John's Congregation.**

The congregation of St. John's Lutheran church recently extended a call to Rev. C. F. Dannecker, urgently soliciting his acceptance of the charge to succeed Rev. Kucher, resigned.

A letter from Mr. Dannecker expresses his thanks for the call, but he declines to accept.

The congregation will extend another call to him at once. It is a rule of the Lutheran synod that a third call made unanimously by a congregation must practically be accepted.

### CLERICAL CHANGES.

**Murray Hartnett and Ed Beach no Longer With S. C. Lumbard.**

Murray Hartnett, who has long efficiently acted as bookkeeper in the insurance and real estate office of Sidney C. Lumbard, is no longer connected in that capacity, having severed his relations in that position last evening. This is quite unexpected. Mr. Hartnett's future plans have not been learned.

Ed. A. Beach, also employed as clerk in the same office is no longer holding that position.

Mr. Lumbard has tendered the position to Mr. Dan McKendry, jr., who recently accepted the deputyship under City Clerk Rudy Reinewald. Mr. McKendry entered upon his new duties at once.

Mr. Reinewald will appoint no successor to Mr. McKendry at present. His retiring deputy has agreed to assist him in times of necessity.

### New Buildings.

City Clerk Rinewald has issued the following building permits:

Robert Johnson, to build a two-story frame house on lot 5, Fry's addition, to cost $1,000.

Mrs. John Corcoran, one story frame house, on lot 301, Hamilton's fourth addition, $700.

### Chicago Cheap Store.

J. R. O'Neill & Co., have leased the store room, No. 128 Calhoun street, and have filled it with an immense stock of CLOTHING, BOOTS and SHOES. This stock was purchased at a great sacrifice sale for cash, therefore, they offer the people greater bargains than ever seen in Fort Wayne. They give away with every pair of ladies' shoes to the amount of $1.50 or over, a pair of ladies' rubbers, and furthermore they will discount ever bill 5 per cent. to all who take them a copy of THE SENTINEL containing this notice.

WEDNESDAY, FEB. 19, 1890.

THE interest in the Cronin murder is being revived again.

IT looks as if our open winter would "hang on" until spring comes.

TO-DAY is the twenty-sixth anniversary of the order of the Knights of Pythias.

THE Personal Rights league will make its power felt in the politics of the city at future elections.

NEXT Monday congress will fix the day for deciding upon the place where the world's fair will be held.

CANDIDATES for state offices on both party tickets are springing up in almost every congressional district in Indiana.

THE Temple management is furnishing our amusement-going people with an unusual brilliant list of attractions this week.

THE pay days of the manufacturing establishments of the city have put a large amount of money into circulation this week.

MANY farmers, living near the city, have not visited Fort Wayne this winter on account of the bad condition of the country roads.

THE doctors continue to report a great deal of sickness in the city. This has been a profitable winter to physicians and druggists.

THE cold wave advertised in THE SENTINEL'S weather report last evening has come—but not to stay. Our winter weather is only fleeting.

FORT WAYNE has a good system of street railroads, but before another year has passed great improvements will be seen in this regard.

MAYOR HARDING thinks the junketing tour of the councilmen to inspect the pavements of other cities is baby play. He says it is a useless expenditure of the people's money.

DANCING has lost none of its charms among the young people of this city and seems to be on the increase. There have been five balls given in Fort Wayne during the last five nights. The amusement has been attacked several times this winter from the city pulpits, but it seems to be as popular as ever.

AN Indianapolis friend of James N. Huston says that gentleman will not retire from the treasuryship of the United States until next fall. Mr. Huston has declined the use of his name in connection with the race for congress as General Brown's successor, but it is not believed that he will decline the nomination.

JOSEPH R. GRAY, of Noblesville, has resigned from the board of commissioners in charge of the erection of the additional insane hospitals, to accept a position in the United States treasury, to which he has been appointed by the president. Governor Hovey appointed Jacob J. Todd, of Bluffton, to the vacancy on the board.

THE proposed changes in the Presbyterian creed are topics of considerable interest at present in the religious world. Rev. Dr. Moffat will handle the subject from his pulpit next Sunday morning. As the doctor is one of the ablest divines in the Presbyterian pulpit, there is a very general desire to hear him on the subject. He speaks on the theme by request.

A MOVEMENT is on foot in Chicago to do away with Sunday shaving by closing the barber shops on that day. The barbers of this city have observed the Sunday law voluntarily for a number of years and their customers think a good deal more of them for it. One day of rest in seven is a human, as well as a divine law and men are better off by reason of having observed it. Mechanics as a rule do not work on Sundays and barbers need not do it.

EFFORTS are being made to organize an international demonstration in favor of an eight-hour working day. A resolution to that effect was passed at the International Socialist workingmen's demonstration in Paris. The American Federation of Labor had fixed May 1, 1890, as the day for a similar demonstration, so that day was adopted in Paris. All the clubs and organizations in Great Britain which are interested in the question have called meetings in order to "make the May demonstration in Great Britain universal and successful." In Germany and Austria the trade unions and labor organizations are also actively engaged in preliminary work.

HERETOFORE there have been three national woman's suffrage associations, They were the American Woman's Suffrage association, the National Woman's Suffrage association and the National American Woman's association. Hereafter the last-named organization will be the only one in existence the first two having decided at meetings at Washington Monday to consolidate with the third. Officers were elected as follows: President, Elizabeth Cady Stanton; vice president at large, Susan B. Anthony; recording secretary, Rachael Foster Avery; corresponding secretary, Alice Stone Blackwell; treasurer, Jane H. Spofford; chairman of executive committee, Lucy Stone.

IN his sermon at the cathedral last Sunday morning Bishop Dwenger preached a powerful sermon in favor of properly educating children in church music, particularly singing, and also favored increasing the number of the church choir to fifty or more. It was the duty of parents, he said, to have their children taught the singing of hymns. This was a beautiful way of worshipping God and persons having talent in this direction should cultivate it and give their talents to the service of the Lord by singing in His temple at religious worship.

## THE STATE BOARD OF HEALTH

### Upon the Proper Ingredients for Wholesome Baking Powders.

The baking powder manufacturers who are trying by dishonest statements to deceive the people of this community into buying powders found by the official analysis to be adulterated and greatly inferior in leavening strength, fail to agree with the official health bodies, physicians, and scientists, in their estimate of the value of carbonate of ammonia as a leavening agent. In their indecent attacks they overshoot the mark altogether and make themselves supremely ridiculous in the light of what the state board of health of Indiana officially publishes upon the subject. The following, from the report of this board for 1885, page 232, will be of general interest:

"As regards carbonate of ammonia, I am safe in saying it cannot prove inimical to health, because the heat of the oven will totally dissipate it, as it is readily volatile at a much lower temperature than is necessary for baking bread. It depends, too, upon this very property of volatility for its value as a lightener of dough; for when transformed to a gas by the oven's heat, in its struggle to escape the effect sought is obtained. Much ado has lately been made by certain baking powder makers about the origin of ammonia, as if that should condemn its use. The facts are, that ammonia being composed of the two gases, nitrogen and hydrogen, it matters not how manufactured, the result, when the substance is pure, is always the same. It is simply a trade doge to advertise," etc.

The Scientific American, recognized as one of the highest authorities upon such subjects, likewise says:

"The carbonate of ammonia is an exceedingly volatile substance. Place a small portion of it upon a knife and hold over a flame, and it will almost immediately be entirely developed into gas and pass off into the air. The gas thus formed is a simple composition of nitrogen and hydrogen, slightly aromatic, inoffensive, and perfectly wholesome. No residue is left from the ammonia. This gives it its superiority as a leavening power over soda and cream of tartar used alone, and has induced its use as a supplement to these articles. A small quantity of ammonia in the dough is effective in producing bread that will be lighter, sweeter and more wholesome than that risen by any other leavening agent. When it is acted upon by the heat of baking the leavening gas that raises the dough is liberated. In this act it uses itself up, as it were; the ammonia is entirely diffused, leaving no trace or residuum whatever. The light, fluffy, flaky appearance, so desirable in biscuits, etc., and so sought after by professional cooks, is said to be imparted to them only by the use of this agent.

"The bakers and baking powder manufacturers producing the finest goods have availed themselves of this useful agent, and the handsomest and best bread and cake are now largely risen by the aid of carbonate of ammonia, combined, of course, with other leavening material."

## EN MASQUE.

### The Masquerade Ball of the Sangerbund Society.

The masquerade ball of the Sangerbund society was held at Princess rink last night.

The attendance was large, the festivities lively and long lasting, and everybody seemed to hugely enjoy the occasion. The music was furnished by Reineke's full orchestra.

The costumes were rich, unique, grotesque, and simple, and space will not permit of a full list of names.

The grand march was led by C. Jacobs and R. Steinman. Twenty-four dances were numbered on the program, and from the grand march to "Home, Sweet Home," all were tripped by light-hearted dancers, bent upon having a good time. The following committees had charge of the affair: Arrangements—August Laughorst, William Becker, Paul Richter. Reception—Henry Keller, Peter Nussbaum, Otto Herbst. Introduction—Otto Cummerow, Frank Rahe, Gottlieb Stauffer. Floor—A. Steinman, Charles Jacobs, Max Irmscher, Theodore Bruck, Nich. Belling, Adam Schlegel, Charles Braun, August Knoche.

The Saengerbund never does things by halves and their affair last night added more laurels to their famous reputation.

"I had rather be a kitten and cry and mew" than groan all night and scold all day with neuralgia, when one little bottle of Salvation Oil would make me gentle and well. Pussy, wouldn't you?

Coughs, hoarseness, asthma or any irritation of the throat or bronchial tubes will be relieved by taking Dr. Bull's Cough Syrup. It has cured thousands. Recommend it to your friend and neighbor.

## IT'S JUST RIGHT.

### Manager Geary Will Refuse Disreputable Characters Admission to the World's Museum.

This morning while one of the members of THE SENTINEL'S reportorial staff was on his rounds in search of news, he dropped into the private office of Manager James Geary, of the World's Museum and Theater.

Mr. Geary is a genial gentleman, and it is always a pleasure to meet him. He was in a talkative mood, and to the question of "How's business?" from our reporter, he said, smilingly:

"Oh, good! Excellent in fact. I have had a splendid business ever since my museum and theater was opened here, and I feel grateful to your amusement going people for the patronage that has been extended me."

"That is because you run a clean show," suggested our reporter.

"Yes," was the reply. "My aim is to furnish the people of Fort Wayne with entertainments of a moral tone. The people I place on my stage are instructed to furnish nothing in the way of amusement of an offensive character and to appear in a costume that is becoming. No short or low necked dresses are allowed. This is my imperative rule."

"Another thing, too, in connection with my theater, that I think will please the public, is that I will not allow any disreputable characters in the house. I propose to have a place which, at all times, will be perfectly proper for ladies of the most refined character to visit. I want to please the ladies and children, and I want their patronage, and for this reason I am catering to their tastes and wishes. I have placed at my door a man who is acquainted with the disreputable characters of the city and have instructed him to refuse them admission. I do not want their money and I will not have them in the house. I want it known that my Museum will always be a moral place of amusement that ladies and children can visit without fear of offensive performances or the presence of improper characters in the house. Women that belong to the latter class will, as I have already said, be denied admission at the door. That's right; isn't it?"

Our scribe thought so and he concluded in this way to let the public know just what kind of a man Manager Geary was.

The museum this week has "Big Eliza" as an attraction. Next week, Mr. Geary says, he will have Annie Nelson, the smallest lady in the world and arrangements have already been made for splendid attractions during the weeks that are to follow. Mr. Geary is a model manager and he deserves the patronage of our best people—and he is getting it.

## A BRILLIANT LIST.

### The Attractions at the Temple for This Week.

Few attractions more popular than Sir Charles Young's "Jim, the Penman," have visited Fort Wayne, and the engagement of A. M. Palmer's Madison Square theater company at the Temple Thursday evening, promises to be most remunerative. The plot of "Jim, the Penman," is unusually fascinating. It depicts a well known English gentleman, honored and respected, who is in reality a bold and cunning forger, known to the police as "Jim, the Penman," but upon whom they have been unable to get their clutches. He lives in the fancied security of his dual life, blessed by the love and wife whom he has gained by treachery, the trickery of his facile pen, having estranged her from a former lover. The forger, James Ralston, wishes to get a fortune so that he may abandon his villainy and lead an honorable life, but his former companions will not permit him to do so. Captain Redwood, a detective, pursues him, but Ralston dies before exposure and disgrace came.

The sale of seats for Chas. T. Ellis in "Casper, the Yodler" opened at the box office this morning. A good house will greet the favorite comedian, who is well liked wherever he appears. His songs are new and very catching. He appears at the Temple Friday evening.

The eminent romantic actor, Robert Mantell, and his thoroughly competent dramatic company will appear at the Temple theatre on Saturday evening next, in an entirely original production of Shakespeare's superb tragedy, "Othello." Mr. Mantell's success as the jealous Moor induced him to add this play to his repertory and the remarkably big business done with it, attests the public's appreciation of his conception of Othello's complex character. Mr. Mantell's costumes in this play are the costliest ever shown on the stage and in them Mantell looks, indeed, like a princely Moor.

"Why doesn't he take Hood's Sarsaparilla?" is the general inquiry of friends when a person suffers from any disease of the blood.

**How to Cure La Grippe.**

From the Des Moines Mail and Times.

Mr. George Tennant of this city, in conversation with a representative of the Mail and Times, one evening this week, said: "Yes, I took this prevailing influenza. I gave up work and went to bed. I had a dreadful cough and was very sick, but am all right now." We ventured to ask what remedy had proven successful in his case. "O, Chamberlain's Cough Remedy. I used a whole bottle, it brought me out all right; I feel first-rate now. We are never without Chamberlain's medicines in our family."

This testimony is only one of many that might be given to show the value of these preparations. Those who are afflicted with this malady would do well to use Chamberlain's Cough Remedy. If used as directed it will be found effectual. Fifty cent bottles for sale by Geo. H. Loesch.

# Be Sure

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. A Boston lady, whose example is worthy imitation, tells her experience below:

days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I had taken Hood's Sarsaparilla, knew what it was, was satisfied with it, and did not want any other. When I began taking Hood's Sarsaparilla I was feeling real miserable with dyspepsia, and so weak that at times I could hardly

## Cured by Cuticura.

I cannot say enough in praise of the Cuticura Remedies. My boy, when one year of age, was so bad with eczema that he lost all of his hair. His scalp was covered with eruptions, which the doctor said was scall-head, and that his hair would never grow again. Despairing of a cure from physicians, I began the use of the Cuticura Remedies, and, I am happy to say, with the most perfect success. His hair is now splendid and there is not a pimple on him. I recommend the Cuticura Remedies to mothers as the most speedy, economical and sure cure for all skin diseases of infants and children, and feel that every mother who has an afflicted child will thank me for so doing.

# ON THE BRINK!

**Of One of the Biggest Freight Wars Ever Known--The Railroad News.**

Indications now are that the western roads are on the brink of one of the biggest freight wars that has ever been fought. The agreements have been knocked all to pieces, at least the agreements that were made a short time ago.

Of course the Burlington and Northern road is at the bottom of the trouble, as they openly announced that they would put the reduced freight rates into effect immediately. This announcement was followed by that of the Illinois Central, saying that they would put reduced rates into effect at once between Chicago and Sioux City. This last announcement was not expected by the other western roads, and has resulted in great consternation.

Since it became generally known that a reduction in the St. Paul rates could not be stopped, the efforts of the managers of the western roads have been directed toward preventing the reduction from spreading to the Missouri river. Other roads in the Western association, when they learned of the intention of the Illinois Central to reduce, gave notice that it being impossible for them to lose any of their traffic they would cut also. They cannot afford to stand aside and let the Illinois Central enjoy an advantage.

There promises to be fun in the western railroad circles if the trouble is not settled soon. The Burlington is very obstinate, as it has been in many similar cases, and they will not come up to the standard again without a great deal of persuasion.

TRAFFIC ON INDIANA ROADS.

State Statistician Poole has completed his tables concerning the railroads of this state. He shows that in 1889 the passenger earnings were $33,350,036; freight earnings, $75,208,954, making a total of $105,003,834. The expenditures were $77,083,323, leaving an excess of earnings over expenses of $27,920,511. The gross earnings, the statistician says, are 86.5 per cent. on bonded indebtedness of $1,259,091,000, and the suplus is 22 per cent. of the same debt.

The number of employes on all the roads is about 74,575. The lowest wages reported are seventy-nine cents a day for pumpmen and the highest $20 a day for general officers. The through passengers carried during 1889 on the roads of the state were 2,641,733 and local passengers 29,707,109; total 32,349,442. Estimating the population of Indiana at 2,500,000, it is seen that the railroads of the state during 1889 transported the entire population thirteen times and 212,650 persons in addition. The average number in the cars each day of the 365 was 88,819. The tons of freight carried amounted to 63,526,509.

THE DAY'S GOSSIP.

The Wabash road paid its employes to-day.

James Wilding has bought the Transfer and Storage company.

A number of the railroad and shop men attended the Saengerbund ball last night.

Passenger Agent Thompson reports passenger business as lively on the Wabash road.

Foreman Charles Buck is having repairs made in the platform around the Wabash depot.

Foreman James Hewes and William Rogers, of the Pittsburg shops, remain on the sick list.

The Grand Rapids is having an ice blockade. The company is three weeks behind in filling orders for ice.

Dan Gordon will resign his position at the Pittsburg baggage rooms to accept a place with the Newspaper Union.

Freight Agent Rossington, of the Pittsburg, is having a new floor laid in the general freight office rooms. Other improvements are also being made.

Foreman S. C. Henderson, of the Pittsburg shops, who has been ill for a few months, is rapidly recovering. He is now visiting friends out of the city.

A St. Louis physician thinks it is just as important that the ears of railroad employes, and particularly the ears of locomotive engineers should be scientifically tested as well as their eyes.

What was going on last night? The railroad reporter of THE SENTINEL this morning, in making his rounds, met within the space of an hour more than a dozen drunken men staggering along the street.

Henry Fanz, the tinner, of Aberdeen, Miss., fame, formerly of this city, has been recommended for appointment as a special agent of the census office to collect statistics of recorded indebtedness. This is his reward for telling of southern outrages.

The shipments of flour, grain and provisions from Chicago to the seaboard by the lines in the Central Traffic association, last week, aggregated 61,881 tons, against 69,702 for the week previous, a decrease of 7,821 tons, and against 41,292 for the corresponding week last year, an increase of 20,389 tons. The Vanderbilt lines carried 46.6 per cent. of the business, the Pennsylvania lines, 27.2, and the Baltimore and Ohio, 11.4, Chicago and Grand Trunk, 11.4.

The order of the Pennsylvania company that agents who had received annual passes over other lines should return them, has excited a good deal of unfriendly criticism. The passenger departments of the Pennsylvania and of the Lake Shore road take the position that they are not given to agents out of any regard for them or the roads they represent, although the flattering letter accompanying them might lead an agent to think otherwise. The passes, the general passenger agents say, are given simply as a cheap method of buying business. They cost the road issuing them nothing but the expense of printing, their trains never being burdened at any time with extra service on such account. Any agent who can obtain a leave of absence sufficient to enable him to take such a trip can, as a rule, obtain a pass by making the request.

An investigation is being made into the cause of the collision near Mitchell, on the Louisville, New Albany and Chicago line, which resulted in heavy financial loss and probably four deaths. A copy of the train dispatcher's orders is reported to show that Edward Fite, the engineer, and his conductor, was instructed to take his engine and run to the water tank, but to avoid all regular trains. It is also claimed that Fite was mentally unsound, the result of an accident some months ago, and only three days before he had been returned to duty. Mr. Fite claims possession of an order instructing him to run to the water tank and return, with no reference to possible obstructions, and that while he was lying nearly dead at Mitchell an agent of the company attempted to get this order from him, but failed. Afterward Mrs. Fite secured possession and deposited it in bank.

$25.00 REWARD!

**The Land and Improvement Company Make a Proposition.**

**They Will Give Our People a Chance to Name the New Park.**

**And Will Pay $25.00 to the Person Proposing the Name Adopted.**

The gentlemen composing the Fort Wayne Land and Improvement company, feel that they would like to have the citizens of Fort Wayne and vicinity have a part in naming the new city park, which they propose to lay out in their recently acquired property east and north of the city. They have decided, therefore, to invite all our people to assist in the selection of a pretty and suitable name.

To the person proposing the name which shall finally be chosen the directors have decided to award the sum of twenty-five dollars. And any person, old or young, is privileged and invited to compete for said prize, under the following conditions: No person is to send in more than one name, but a family consisting of a number of persons may send in one name for each, but each must be sent in in a separate envelope. The name proposed is to be plainly written on a sheet of paper, together with the name of the person proposing it, and his or her place of residence. This must be sealed and the envelope addressed and endorsed as follows:

SECRETARY LAND IMPROVEMENT CO.,
FORT WAYNE,
INDIANA.

NAME FOR PARK.

Thus addressed, they are to be mailed or left at the company's office, room No. 12, Pixley-Long block.

On receipt of all envelopes, thus marked, the secretary will number each in the order in which it is received and, without opening, will file them away until 6 p. m., Feb. 27, the date appointed for the closing of competition. The secretary shall then open all envelopes in the order in which they are numbered and shall record, in a properly ruled book, the name proposed, the number borne upon the envelope, the name of the person sending it in, and his place of residence. When this is done, the secretary shall prepare a list of the names suggested, but shall not inform any person by whom any such name has been sent in. The stockholders shall then be called together and the list of names being submitted, they shall proceed to ballot for the name of their choice, each person to vote upon such shares as have been subscribed by him, or for which he may hold a written proxy. Balloting shall be continued until some name shall receive a majority of all the stock voted. After each ballot the names receiving the smallest number of votes, to the extent of one-tenth of the number voted for shall be dropped and shall not again be voted for. If before a choice is reached the number of names be reduced to less than ten, the name receiving the smallest number of votes shall be dropped at each succeeding ballot. When a selection is finally reached, if it be found that two or more persons have sent in the name chosen, the prize shall go to the person shown by the secretary's books to have first proposed it.

By order of the board of directors.
D. N. FOSTER, President.
C. A. WILDING, Secretary.

**Infernal Ingenuity**

could scarcely devise more excruciating tortures than those of which you see the evidences in the face of a rheumatic or neuralgic sufferer. The agonies are the consequence of not the king rheumatic or neuralgic attack at the outset. Hostetter's Stomach Bitters has been tried by skilful medical practitioners to possess not only remedial but defensive efficacy, when those diseases exist or a tendency to them is exhibited. Surely this pure but safe botanic invigorant should have the benefit of such high specific sanction is better than the poisons often employed in most unsafe, not only in continuance, but in repeated doses. The blood is depurated thoroughly from the rheumatic virus and the nerves slightly impurged upon save from ultimate and direful throes by this benign saving medicine which likewise exhibits marked efficacy for malaria, kidney complaints, dyspepsia constipation and liver complaint.

A Michigan mathematician calculates that 17,560,000 people in the United States have had the grip.

**Advice to Mothers.**—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

Save Your Children.

The Enemies of Childhood

The undersigned clips the following from the Detroit Commercial Advertiser:

This is my first visit at the "round table," and while a letter about worms in children is what brings me here. My child was so bad that he had spasms. I knew that worms were the source of the trouble, but a safe remedy I could not find. I tried everything I heard of that I dared to, got worm medicine from every drug store in town, and nothing did any good until I tried Stekete's Worm Medicine. I have not much faith in patent medicine generally, but I had heard enough about Doctor Stekete, of Grand Rapids, to know that he was an honorable man and would not recommend a medicine unless it was all that he claimed it to be. I got the medicine, and it proved a perfect success. It is perfectly harmless, and no one need be afraid to give it to the most delicate child. It is not powerful enough to kill the worms; you get them alive and kicking. If you cannot get it of your druggists, send to Doctor Stekete, Grand Rapids, Mich., for it.
Mrs. M. H. Jackson, Mich.

## WASHINGTON.

**The President Sends Several Appointments to the Senate—Congressional Proceedings.**

WASHINGTON, Feb. 19.—The president sent to the senate to-day the following nominations: Levi E. Pond, of Wisconsin, to be pension agent at Milwaukee; Fred Babcock, of Iowa, to be receiver of public moneys at Des Moines, Iowa, and several registers of land offices and supervisors of census.

The division of the time of the house among the friends of the various cities struggling for the world's fair has been arranged. One hour and a half on Thursday and half an hour on Friday will be allotted each city. The friends and opponents of "any fair at all" will be allotted one hour of each day, which the chairman, Mr. Chandler, reserves to himself. As a result of an understanding had last night among the friends of the four cities, New York will be heard first, St. Louis next, Chicago third and Washington last.

The senate committee on naval affairs at its meeting this morning ordered an adverse report on the bill providing that when employes of the navy yards are laid up account of injuries, they shall receive pay during the period of their incapacity.

The house at 12:50 p. m., went into committee of the whole upon the bill for the appointment of an assistant secretary of war, and after some discussion the committee rose and reported the bill to the house, and resumed consideration of the bill for a form of government for Oklahoma.

In the senate, at 2 o'clock, the educational bill was resumed, Mr. Blair having the floor.

### FIENDISH ACT.

**Scoundrels Throw Oil of Vitriol Into a Young Lady's Face.**

ERIE, Pa., Feb. 19.—On Monday evening Miss Emma Fischer, a young lady of prominence and respectability, was called to the door of her home by some unknown miscreant, who threw oil of vitriol into her face, and then made his escape.

Dennis McCarthy, the young lady's lover, set out to find the man. About midnight McCarthy heard voices in an old building, and being satisfied that he was on the right track, he attempted to enter the door. The men inside fired upon McCarthy, inflicting a painful, but not fatal wound.

McCarthy held his ground and called loudly for help, but the men who were inside, and who were undoubtedly connected with the vitriol throwing, made their escape by the rear door. Miss Fischer will be greatly disfigured.

### A BRUTAL FIGHT.

**Dempsey Defeats McCarthy in an Inhuman and Bloody Fight.**

SAN FRANCISCO, Feb. 19.—The closing rounds of the Dempsey-McCarthy fight last night were savage and bloody. Dempsey repeatedly hit his antagonist in the neck, but the Australian could not reach the nonpareil. McCarthy fought stubbornly, but Dempsey, by his quick movements, saved himself from the blows aimed at his face and body and was able to punish his antagonist severely.

In the twenty-sixth round Dempsey went in in earnest to finish his man. Three or four terrific right and left hand blows on the Australian's neck made the latter exceedingly groggy and then Dempsey hit him another blow in the face and McCarthy staggered around the ring like a drunken man, and Dempsey continued to rain blows on his neck, but he kept his feet until the nonpareil, in pity for his victim, asked him to give up.

McCarthy refused and Dempsey took him by the arm and led him to his corner, amid cheers.

In the twenty-seventh round McCarthy was just able to stand. A blow in the face sent him down. He arose and Dempsey again sent him him down. Dempsey then begged him to give up. McCarthy still refused and Dempsey struck him lightly as he came again. He fell, but arose in ten seconds, and Dempsey knocked him down a fourth time. He staggered to his feet to save a knock-out and the round closed.

McCarthy was led to his corner, covered with blood, amid loud cries to give up the fight. When McCarthy staggered to the center of the ring for the twenty-eight round Dempsey implored him to give up, and cries of "Knock him out, Jack," and "Give it up, McCarthy," were heard on all sides.

The Australian hated to acknowledge himself defeated, and Dempsey beat him into his corner and sent him down in a heap. He rose and leaned against the ropes for support; Dempsey walked up to finish him, but instead, he stepped to the ring and declared he had not the heart to punish his man any further. Paddy Gorman, McCarthy's second then broke into the ring and dragged his man into his corner, and refused to permit him to stay in the fight any longer. Dempsey was then formally declared the winner of the fight.

## DEATH OF THE JAIL CAT!

**Results in Revealing a Horrible Plot to Kill the Guards and Rescue a Murderer.**

PIKEVILLE, Ky., Feb. 19.—Ellison Mount was hanged here yesterday for participating in the murder of Miss Alafar McCoy and her brother. He remained cool to the last, and declared that the Hatfield outlaw gang forced him to engage in the murder. Threats had been made by Mount's friends to rescue him, but great precautions had been taken, and no disturbance occurred. The execution was witnessed by a large crowd.

After the execution the officers discovered a plot which, if successful, would have resulted in the escape of the prisoner, and probable death of a number of the guards of the jail. Through the confession of the jail cook, the discovery was made.

The Hatfields had paid the cook $200 to place a drug in the food of the jail guards the night before the execution. The cook was told that the drug that was given was merely to make the guards sleep. She became suspicious and concluded to try the effects of the preparation on the jail cat. The result was the death of the animal in horrible agony.

She then became alarmed and refused to put the poison in the food.

She did not communicate her intentions, however, to the outlaws and they gathered near the jail to await the signal which would indicate that the guards were sick within. Had the wholesale attempt at murder been successful not only the prisoners in the prison would have been killed from the effects of the poison, but also the sheriff's family and posse. The drug was found to be strychnine. The cook was immediately arrested.

All the outlaw gang have fled to the mountains of West Virginia, where it is sure death for the officers to follow them. All the lawless persons who are responsible for this outrageous affair are from West Virginia. The sheriff is having the necessary papers arranged to secure requisitions for the would-be murderers and every effort will be made to bring them to justice. Should they be brought back here during the present intense excitement every one of them would be instantly mobbed as the people are crazed with indignation.

### World's Fair Bill.

ALBANY, N. Y., Feb. 19.—In the senate the assembly's action in the World's fair bill was concurred in and the bill passed.

"WHEN I went to California in 1849," says Millionaire Huntington, "I was accompanied by a party of young fellows from my native State, Connecticut, and when we reached Sacramento the first thing they did was to go to the hotel and spend $4 apiece for dinner. My dinner cost me less than a sixteenth of that sum. It was always my rule to live within my income. Any young man who does that will get along."

A GAS ordinance was passed by the McConnellsville (Ohio) Council recently. The substance of the ordinance was to provide for building a high fence around a certain school in town known as the "Blue Goose," which appellation is suggested by the peculiarly bright color of its front. Miss Twanny's recitations were a very pleasing feature of the entertainment.

The young ladies who were promoters of the entertainment were the two Misses Stringer, the two Misses Lincoln and Miss Kitty Blynn and Dell Bontie. They netted about $60 to pay on the piano, which was purchased from Taylor's warerooms.

WEDNESDAY, FEB. 19, 1890.

THE interest in the Cronin murder is being revived again.

IT looks as if our open winter would "hang on" until spring comes.

TO-DAY is the twenty-sixth anniversary of the order of the Knights of Pythias.

THE Personal Rights league will make its power felt in the politics of the city at future elections.

NEXT Monday congress will fix the day for deciding upon the place where the world's fair will be held.

CANDIDATES for state offices on both party tickets are springing up in almost every congressional district in Indiana.

THE Temple management is furnishing our amusement going people with an unusual brilliant list of attractions this week.

THE pay days of the manufacturing establishments of the city have put a large amount of money into circulation this week.

MANY farmers, living near the city, have not visited Fort Wayne this winter on account of the bad condition of the country roads.

THE doctors continue to report a great deal of sickness in the city. This has been a profitable winter to physicians and druggists.

THE cold wave advertised in THE SENTINEL'S weather report last evening has come—but not to stay. Our winter weather is only fleeting.

FORT WAYNE has a good system of street railroads, but before another year has passed great improvements will be seen in this regard.

MAYOR HARDING thinks the junketing tour of the councilmen to inspect the pavements of other cities is baby play. He says it is a useless expenditure of the people's money.

DANCING has lost none of its charms among the young people of this city and seems to be on the increase. There have been five balls given in Fort Wayne during the last five nights. The amusement has been attacked several times this winter from the city pulpits, but it seems to be as popular as ever.

AN Indianapolis friend of James N. Huston says that gentleman will not retire from the treasuryship of the United States until next fall. Mr. Huston has declined the use of his name in connection with the race for congress as Gen eral Brown's successor, but it is not believed that he will decline the nomination.

JOSEPH B. GRAY, of Noblesville, has resigned from the board of commissioners in charge of the erection of the additional insane hospitals, to accept a position in the United States treasury, to which he has been appointed by the president. Governor Hovey appointed Jacob J. Todd, of Bluffton, to the vacancy on the board.

THE proposed changes in the Presbyterian creed are topics of considerable interest at present in the religious world. Rev. Dr. Moffat will handle the subject from his pulpit next Sunday morning. As the doctor is one of the ablest divines in the Presbyterian pulpit, there is a very general desire to hear him on the subject. He speaks on the theme by request.

A MOVEMENT is on foot in Chicago to do away with Sunday shaving by closing the barber shops on that day. The barbers of this city have observed the Sunday law voluntarily for a number of years and their customers think a good deal more of them for it. One day of rest in seven is a human, as well as a divine law and men are better off by reason of having observed it. Mechanics as a rule do not work on Sundays and barbers need not do it.

EFFORTS are being made to organize an international demonstration in favor of an eight-hour working day. A resolution to that effect was passed at the International Socialist workingmen's demonstration in Paris. The American Federation of Labor had fixed May 1, 1890, as the day for a similar demonstration, so that day was adopted in Paris. All the clubs and organizations in Great Britain which are interested in the question have called meetings in order to "make the May demonstration in Great Britain universal and successful." In Germany and Austria the trade unions and labor organizations are also actively engaged in preliminary work.

HERETOFORE there have been three national woman's suffrage associations. They were the American Woman's Suffrage association, the National Woman's Suffrage association and the National American Woman's association. Hereafter the last-named organization will be the only one in existence the first two having decided at meetings at Washington Monday to consolidate with that third. Officers were elected as follows: President, Elizabeth Cady Stanton; vice president at large, Susan B. Anthony; recording secretary, Rachael Foster Avery; corresponding secretary, Alice Stone Blackwell; treasurer, Jane H. Spafford; chairman of executive committee, Lucy Stone.

IN his sermon at the cathedral last Sunday morning Bishop Dwenger preached a powerful sermon in favor of properly educating children in church music, particularly singing, and also favored increasing the number of the church choir to fifty or more. It was the duty of parents, he said, to have their children taught the singing of hymns. This was a beautiful way of worshipping God and persons having talent in this direction should cultivate it and give their talents to the service of the Lord by singing in His temple at religious worship.

### THE STATE BOARD OF HEALTH

**Upon the Proper Ingredients for Wholesome Baking Powders.**

The baking powder manufacturers who are trying by dishonest statements to deceive the people of this community into buying powders found by the official analysis to be adulterated and greatly inferior in leavening strength, fail to agree with the official health bodies, physicians, and scientists, in their estimate of the value of carbonate of ammonia as a leavening agent. In their indecent attacks they overshoot the mark altogether and make themselves supremely ridiculous in the light of what the state board of health of Indiana officially publishes upon the subject. The following, from the report of this board for 1885, page 232, will be of general interest:

"As regards carbonate of ammonia, I am safe in saying it cannot prove inimical to health, because the heat of the oven will totally dissipate it, as it is readily volatile at a much lower temperature than is necessary for baking bread. It depends, too, upon this very property of volatility for its value as a lightener of dough; for when transformed to a gas by the oven's heat, in its struggle to escape the effect sought is obtained. Much ado has lately been made by certain baking powder makers about the origin of ammonia, as if that should condemn its use. The facts are, that ammonia being composed of the two gases, nitrogen and hydrogen, it matters not how manufactured, the result, when the substance is pure, is always the same. It is simply a trade dodge to advertise," etc.

The Scientific American, recognized as one of the highest authorities upon such subjects, likewise says:

"The carbonate of ammonia is an exceedingly volatile substance. Place a small portion of it upon a knife and hold over a flame, and it will almost immediately be entirely developed into gas and pass off into the air. The gas thus formed is a simple composition of nitrogen and hydrogen, slightly aromatic, inoffensive, and perfectly wholesome. No residue is left from the ammonia. This gives it its superiority as a leavening power over soda and cream of tartar used alone, and has induced its use as a supplement to these articles. A small quantity of ammonia in the dough is effective in producing bread that will be lighter, sweeter and more wholesome than that risen by any other leavening agent. When it is acted upon by the heat of baking the leavening gas that raises the dough is liberated. In this act it uses itself up, as it were; the ammonia is entirely diffused, leaving no trace or residuum whatever. The light, fluffy, flaky appearance, so desirable in biscuits, etc., and so sought after by professional cooks, is said to be imparted to them only by the use of this agent.

"The bakers and baking powder manufacturers producing the finest goods have availed themselves of this useful agent, and the handsomest and best bread and cake are now largely risen by the aid of carbonate of ammonia, combined, of course, with other leavening material."

### EN MASQUE.

**The Masquerade Ball of the Sangerbund Society.**

The masquerade ball of the Sangerbund society was held at Princess rink last night.

The attendance was large, the festivities lively and long lasting, and everybody seemed to hugely enjoy the occasion. The music was furnished by Reineke's full orchestra.

The costumes were rich, unique, grotesque, and simple, and space will not permit of a full list of names.

The grand march was led by C. Jacobs and R. Steinman. Twenty-four dances were numbered on the program, and from the grand march to "Home, Sweet Home," all were tripped by light-hearted dancers, bent upon having a good time. The following committees had charge of the affair: Arrangements—August Laughorst, William Becker, Paul Richter. Reception—Henry Keller, Peter Nussbaum, Otto Herbst. Introduction—Otto Cummerow, Frank Rabe, Gottlieb Stauffer. Floor—A. Steinman, Charles Jacobs, Max Irmscher, Theodore Bruck, Nich. Belling, Adam Schlegel, Charles Braun, August Knoche.

The Sangerbund never does things by halves and their affair last night added more laurels to their famous reputation.

"I had rather be a kitten and cry and mew" than groan all night and scold all day with neuralgia, when one little bottle of Salvation Oil would make me gentle and well. Pussy, wouldn't you?

Coughs, hoarseness, asthma or any irritation of the throat or bronchial tubes will be relieved by taking Dr. Bull's Cough Syrup. It has cured thousands. Recommend it to your friend and neighbor.

### IT'S JUST RIGHT.

**Manager Geary Will Refuse Disreputable Characters Admission to the World's Museum.**

This morning while one of the members of THE SENTINEL'S reportorial staff was on his rounds in search of news, he dropped into the private office of Manager James Geary, of the World's Museum and Theater.

Mr. Geary is a genial gentleman, and it is always a pleasure to meet him. He was in a talkative mood, and to the question of "How's business?" from our reporter, he said, smilingly:

"Oh, good! Excellent in fact. I have had a splendid business ever since my museum and theater was opened here, and I feel grateful to your amusement going people for the patronage that has been extended me."

"That is because you run a clean show," suggested our reporter.

"Yes," was the reply. "My aim is to furnish the people of Fort Wayne with entertainments of a moral tone. The people I place on my stage are instructed to furnish nothing in the way of amusement of an offensive character and to appear in a costume that is becoming. No short or low necked dresses are allowed. This is my imperative rule."

"Another thing, too, in connection with my theater, that I think will please the public, is that I will not allow any disreputable characters in the house. I want to please the ladies and children, and I want their patronage, and for this reason I am catering to their tastes and wishes. I have placed at my door a man who is acquainted with the disreputable characters of the city and have instructed him to refuse them admission. I do not want their money and I will not have them in the house. I want it known that my Museum will always be a moral place of amusement that ladies and children can visit without fear of offensive performances or the presence of improper characters in the house. Women that belong in the latter class will, as I have already said, be denied admission at the door. That's right; isn't it?"

Our scribe thought so and he concluded in this way to let the public know just what kind of a man Manager Geary was.

The museum this week has "Big Eliza" as an attraction. Next week, Mr. Geary says, he will have Annie Nelson, the smallest lady in the world and arrangements have already been made for splendid attractions during the weeks that are to follow. Mr. Geary is a model manager and he deserves the patronage of our best people and he is getting it.

### A BRILLIANT LIST.

**The Attractions at the Temple for This Week.**

Few attractions more popular than Sir Charles Young's "Jim, the Penman," have visited Fort Wayne, and the engagement of A. M. Palmer's Madison Square theater company at the Temple Thursday evening, promises to be most remunerative. The plot of "Jim, the Penman," is unusually fascinating. It depicts a well known English gentleman, honored and respected, who is in reality a bold and cunning forger, known to the police as "Jim, the Penman," but upon whom they have been unable to get their clutches. He lives in the fancied security of his dual life, blessed by the love and wife whom he has gained by treachery, the trickery of his facile pen, having estranged her from a former lover. The forger, James Ralston, wishes to get a fortune so that he may abandon his villainy and lead an honorable life, but his former companions will not permit him to do so. Captain Redwood, a detective, pursues him, but Ralston dies before exposure and disgrace came.

The sale of seats for Chas. T. Ellis in "Casper, the Yodler" opened at the box office this morning. A good house will greet the favorite comedian, who is well liked wherever he appears. His songs are new and very catching. He appears at the Temple Friday evening.

The eminent romantic actor, Robert Mantell, and his thoroughly competent dramatic company will appear at the Temple theatre on Saturday evening next, in an entirely original production of Shakespeare's superb tragedy, "Othello." Mr. Mantell's success as the jealous Moor induced him to add this play to his repertory and the remarkably big business done with it, attests the public's appreciation of his conception of Othello's complex character. Mr. Mantell's costumes in this play are the costliest ever shown on the stage and in them Mantell looks, indeed, like a princely Moor.

### How to Cure La Grippe.

From the Des Moines Mail and Times.

Mr. George Tennant of this city, in conversation with a representative of the Mail and Times, one evening this week, said: "Yes, I took this prevailing influenza. I gave up work and went to bed. I had a dreadful cough and was very sick, but am all right now." We ventured to ask what remedy had proven successful in his case. "O, Chamberlain's Cough Remedy. I used a whole bottle, it brought me out all right; I feel first-rate now. We are never without Chamberlain's medicines in our family."

This testimony is only one of many that might be given to show the value of these preparations. Those who are afflicted with this malady would do well to use Chamberlain's Cough Remedy. If used as directed it will be found effectual. Fifty cent bottles for sale by Geo. H. Locneh.

## Be Sure

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. A Boston lady, whose example is worthy imitation, tells her experience below:

days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I had taken Hood's Sarsaparilla, knew what it was, was satisfied with it, and did not want any other. When I began taking Hood's Sarsaparilla I was feeling real miserable with dyspepsia, and so weak that at times I could hardly

## NOT A PIMPLE ON BABY.

**Baby one year old. Had with Eczema. Hair all gone. Scalp covered with eruptions. Cured by Cuticura. Hair splendid and not a pimple on him.**

## Cured by Cuticura.

I cannot say enough in praise of the Cuticura Remedies. My boy, when one year of age, was so bad with eczema that he lost all of his hair. His scalp was covered with eruptions, which the doctor said was scall-head, and that his hair would never grow again. Despairing of a cure from physicians, I began the use of the Cuticura Remedies, and, I am happy to say, with the most perfect success. His hair is now splendid, and there is not a pimple on him. I recommend the Cuticura Remedies to mothers as the most speedy, economical and sure cure for all skin diseases of infants and children, and feel that every mother who has an afflicted child will thank me for so doing.
MRS. M. E. WOODSTOCK, Norway, Me.

### Fever Sore Eight Years.

I must extend to you the thanks of one of my customers, who has been cured by using the Cuticura Remedies of an old sore (an old fever sore) of a long spell of sickness or fever eight years ago. He was so bad he was fearful he would have to have his leg amputated, but is happy to say he is now entirely well—sound as a dollar. He requests me to use his name, which is R. H. CASSIN, merchant.

## ON THE BRINK!

**Of One of the Biggest Freight Wars Ever Known.--The Railroad News.**

Indications now are that the western roads are on the brink of one of the biggest freight wars that has ever been fought. The agreements have been knocked all to pieces, at least the agreements that were made a short time ago.

Of course the Burlington and Northern road is at the bottom of the trouble, as they openly announced that they would put the reduced freight rates into effect immediately. This announcement was followed by that of the Illinois Central, saying that they would put reduced rates into effect at once between Chicago and Sioux City. This last announcement was not expected by the other western roads, and has resulted in great consternation.

Since it became generally known that a reduction in the St. Paul rates could not be stopped, the efforts of the managers of the western roads have been directed toward preventing the reduction from spreading to the Missouri river. Other roads in the Western association, when they learned of the intention of the Illinois Central to reduce, gave notice that it being impossible for them to lose any of their traffic they would cut also. They cannot afford to stand aside and let the Illinois Central enjoy an advantage.

There promises to be fun in the western railroad circles if the trouble is not settled soon. The Burlington is very obstinate, as it has been in many similar cases, and they will not come up to the standard again without a great deal of persuasion.

TRAFFIC ON INDIANA ROADS.

State Statistician Poole has completed his tables concerning the railroads of this state. He shows that in 1889 the passenger earnings were $33,350,036; freight earnings, $75,208,964, making a total of $105,003,854. The expenditures were $77,083,323, leaving an excess of earnings over expenses of $27,920,511. The gross earnings, the statistician says, are 66.5 per cent. on bonded indebtedness of $1,259,091,000, and the suplus is 22 per cent. of the same debt.

The number of employes on all the roads is about 74,575. The lowest wages reported are seventy-nine cents a day for pumpmen and the highest $20 a day for general officers. The through passengers carried during 1889 on the roads of the state were 2,641,733 and local passengers 29,707,109; total 32,349,442. Estimating the population of Indiana at 2,500,000, it is seen that the railroads of the state during 1889 transported the entire population thirteen times and 212,650 persons in addition. The average number in the cars each day of the 365 was 88,819. The tons of freight carried amounted to 63,526,509.

THE DAY'S GOSSIP.

The Wabash road paid its employes to-day.

James Wilding has bought the Transfer and Storage company.

A number of the railroad and shop men attended the Saengerbund ball last night.

Passenger Agent Thompson reports passenger business as lively on the Wabash road.

Foreman Charles Buck is having repairs made in the platform around the Wabash depot.

Foreman James Howes and William Rogers, of the Pittsburg shops, remain on the sick list.

The Grand Rapids is having an ice blockade. The company is three weeks behind in filling orders for ice.

Dan Gordon will resign his position at the Pittsburg baggage rooms to accept a place with the Newspaper Union.

Freight Agent Rossington, of the Pittsburg, is having a new floor laid in the general freight office rooms. Other improvements are also being made.

Foreman S. C. Henderson, of the Pittsburg shops, who has been ill for a few months, is rapidly recovering. He is now visiting friends out of the city.

A St. Louis physician thinks it is just as important that the ears of railroad employes, and particularly the ears of locomotive engineers should be scientifically tested as well as their eyes.

What was going on last night? The railroad reporter of THE SENTINEL this morning, in making his rounds, met within the space of an hour more than a dozen drunken men staggering along the street.

Henry Fase, the tinner, of Aberdeen, Miss., fame, formerly of this city, has been recommended for appointment as a special agent of the census office to collect statistics of recorded indebtedness. This is his reward for telling of southern outrages.

The shipments of flour, grain and provisions from Chicago to the seaboard by the lines in the Central Traffic association, last week, aggregated 61,-881 tons, against 69,702 for the week previous, a decrease of 7,821 tons, and against 41,292 for the corresponding week last year, an increase of 20,389 tons. The Vanderbilt lines carried 46.6 per cent. of the business, the Pennsylvania lines, 27.2, and the Baltimore and Ohio, 11.4, Chicago and Grand Trunk, 11.4.

The order of the Pennsylvania company that agents who had received annual passes over other lines should return them, has excited a good deal of unfriendly criticism. The passenger departments of the Pennsylvania and of the Lake Shore road take the position that they are not given to agents out of any regard for them or the roads, they represent, although the flattering letter accompanying them might lead an agent to think otherwise. The passes, the general passenger agents say, are given simply as a cheap method of buying business. They cost the road issuing them nothing but the expense of printing, their trains never being burdened at any time with extra service on such account. Any agent who can obtain a leave of absence sufficient to enable him to take such a trip can, as a rule, obtain a pass by making the request.

An investigation is being made into the cause of the collision near Mitchell, on the Louisville, New Albany and Chicago line, which resulted in heavy financial loss and probably four deaths. A copy of the train dispatcher's orders is reported to show that Edward Fite, the engineer, and his conductor, was instructed to take his engine and run to the water tank, but to avoid all regular trains. It is also claimed that Fite was mentally unsound, the result of an accident some months ago, and only three days before he had been returned to duty. Mr. Fite claims possession of an order instructing him to run to the water tank and return, with no reference to possible obstructions, and that while he was lying nearly dead at Mitchell an agent of the company attempted to get this order from him, but failed. Afterward Mrs. Fite secured possession and deposited it in bank.

$25.00 REWARD!

**The Land and Improvement Company Make a Proposition.**

**They Will Give Our People a Chance to Name the New Park.**

**And Will Pay $25.00 to the Person Proposing the Name Adopted.**

The gentlemen composing the Fort Wayne Land and Improvement company, feel that they would like to have the citizens of Fort Wayne and vicinity have a part in naming the new city park, which they propose to lay out in their recently acquired property east and north of the city. They have decided, therefore, to invite all our people to assist in the selection of a pretty and suitable name.

To the person proposing the name which shall finally be chosen the directors have decided to award the sum of twenty-five dollars. And any person, old or young, is privileged and invited to compete for said prize, under the following conditions: No person is to send in more than one name, but a family consisting of a number of persons may send in one name for each, but each must be sent in in a separate envelope. The name proposed is to be plainly written on a sheet of paper, together with the name of the person proposing it, and his or her place of residence. This must be sealed and the envelope addressed and endorsed as follows:

SECRETARY LAND IMPROVEMENT CO.,
FORT WAYNE,
INDIANA.
NAME FOR PARK.

Thus addressed, they are to be mailed or left at the company's office, room No. 12, Pixley-Long block.

On receipt of all envelopes, thus marked, the secretary will number each in the order in which it is received and, without opening, will file them away until 6 p. m., Feb. 27, the date appointed for the closing of competition. The secretary shall then open all envelopes in the order in which they are numbered and shall record, in a properly ruled book, the name proposed, the number borne upon the envelope, the name of the person sending it in, and his place of residence. When this is done, the secretary shall prepare a list of the names suggested, but shall not inform any person by whom any such name has been sent in. The stockholders shall then be called together and the list of names being submitted, they shall proceed to ballot for the name of their choice, each person to vote upon such shares as have been subscribed by him, or for which he may hold a written proxy. Balloting shall be continued until some name shall receive a majority of all the stock voted. After each ballot the names receiving the smallest number of votes, to the extent of one-tenth of the number voted for shall be dropped and shall not again be voted for. If before a choice is reached the number of names be reduced to less than ten, the name receiving the smallest number of votes shall be dropped at each succeeding ballot. When a selection is finally reached, if it be found that two or more persons have sent in the name chosen, the prize shall go to the person shown by the secretary's books to have first proposed it.

By order of the board of directors.
D. N. FOSTER, President.
C. A. WILDING, Secretary.

**Infernal Ingenuity**

could scarcely devise more excruciating torture than those of which you see the victim a prey in the case of a distressing or agonizing stomach. The wonderful and effectual remedy for such a condition is to be found in that purifier and promoter of digestion and assimilation, Hostetter's Stomach Bitters, which, moreover, is a thorough medicine for the blood, liver, kidneys and bowels, and not only removes, but prevents malarial troubles. It is better than the best, as a substitute, but not related drugs. The blood is depurated thoroughly from the chronic taint and the nerves, digestive organs and system strengthened and vitalized. Dyspepsia, constipation and liver complaint.

A Michigan mathematician calculates that 17,560,000 people in the United States have had the grip.

**Advice to Mothers.**—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

Was a success, such that has had no precedence in the history of Fort Wayne. The universal verdict of the hundreds of bargain-seekers that crowded our store last Saturday, the opening day, was, we agree that this is the cheapest SHOE SALE that ever visited this city. A great many people will doubtless think this a humbug traveling store. In this they are mistaken, as we can prove to all that so desire that this is STRICTLY A LEGITIMATE SALE. The history of the failure of Hugh Dyer & Co., of Toledo, Ohio, is as follows:

On the 5th day of October last the aforesaid firm, then doing a very prosperous business, thinking this would be a very severe winter, laid in a very large stock of winter goods, in payment of which they gave judgment notes. The winter was an exceedingly mild one, consequently trade was very dull. Their goods were not moving; bills became due, and having no money, they were compelled to mortgage their stock, $20,000 worth, to Mr. M. McDonald, of this city, for $8,765.87, which was to be paid on February 1st. The money was not forthcoming, and Mr. McDonald, fearing that he would lose his investment, foreclosed the mortgage. The stock after invoicing amounted to a little over $18,000, and was shipped to Fort Wayne, where it will be sold for about 33c. on the dollar.

We have not sufficient space to quote prices, but will give you an idea how we will dispose of the goods; for instance: A shoe that was formerly sold for $3, we will sell for $1; a shoe that was sold for $2, we will sell for 67c.; slippers that cost 75c. we'll sell for 25c.; ladies' rubbers at 60c. we'll sell for 17c., &c.

Amongst the stock we find such makes as Pingree & Smith, Ludlow & Co., Gray Bros., John Kelly, Reynolds Bros. and E. C. Burt. All running regular size from 2 to 8, from AA to EE widths.

As this stock must be expeditiously disposed of, it will pay all intending paying this sale a visit to do so at once. Remember, we guarantee to save you from 50c. to $3.00 on every purchase.
